NOTICE

OR

PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate. A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form.

Operator Information:

Name

Address

NOV 05 1990

Telephone

Joseph O. Kingston, Bill Stoddard,
George K. Fadel, W. J. Owen, I. A.
Nielsen and Carl E. Kingston

c/o Carl E. Kingston
53 West Angelo Avenue
Salt Lake City, Utah 84115

DIVISION OF (801) 486-1458

OIL, GAS & MINING

Claimant Information (If different than operator):

Name

Address

Telephone

same

Claim Information (Claim names, circle claim types (Lode, Placer, Mill Site, Tunnel), BLM Serial No.): **UMC98432-98436**

Mineral Life Claim, Burnham Placer Claim, Batrolatom Placer Claim,
Von Elm Placer Claim and Blue Rock Placer Claim

Location of Proposed Activity (i.e. Township, Range, Section):

Township 23 South, Range 6 East, Section 3, SLBM.

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

Some mineral has been faced up for a distance of about 300 yards. No structures have been built.

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.) List all mechanized earth-moving equipment to be used during the operation and state if explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing the locations and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 acre = 43,560 sq. ft.)

The proposed operations include building an access road to the existing mineral and exploration with a bulldozer. The access road has been completed and some exploration for about 300 yards has been done. This mineral is intended only for the use of the operators and is extracted only in small amounts throughout the year. Extraction may vary from 12 ton to 125 ton in a years time. Each year assessment work is done which includes

grading the road and a small amount of exploration with a Bulldozer. The access road starts at the BLM marker on the north east corner of section 3, it goes south about six tenth of a mile to the area where the mineral is faced up.

Period of Operation: From March 15th 1990 To June 15, 1990

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of nonoperation is anticipated.

Proposed reclamation would include preparing the disturbed area for reseeding and the seeding of this area. Because very little extraction is done and the claims are idle the greater part of each year, it may be necessary to put in some erosion prevention such as silt fences or bales of straw.

I will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Signature of Operator: Bill Stoddard Date 10-30-90

NOTICE TO OPERATORS:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 calendar days before commencing operations. Receipt of a notice will be acknowledged promptly. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a submitted plan and will notify the operator of the status of the plan within 30 days of receipt of the plan.
2. Submittal of a notice or approval of a plan of operations does not constitute certification of ownership to any person named as owner herein, nor does it constitute recognition of the validity of any mining claims named herein.
3. Generally, information that could be considered proprietary is not necessary to fulfill notice or plan of operations requirements. However, information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately and will not be available for public inspection.
4. Failure of operator to file a notice or a plan of operations, as required by the 43 CFR 3809 regulations, will subject the operator to being served a notice of noncompliance or enjoined from the continuation of such operations by a court order until such time as a notice or plan is filed with the BLM.
5. The completed notice or plan of operations should be filed with the appropriate resource area office. Their addresses are as follows:

San Rafael & Price River Resource Areas
900 North 700 East
Price, Utah 84501

Grand Resource Area
P. O. Box M
Moab, Utah 84532

San Juan Resource Area
435 North Main Street
